Manual Test Plan

Recording Test:

To run the test:

>-Connect an Android phone to your computer

>-Run the Amadeus application from Eclipse by right clicking the Amadeus project and selecting the 'Run as Android application' option from the 'Run As' menu.

>-Once the application is open on your phone, the application will begin recording your sound input.

>-Make some noise into the microphone part of your phone to record sound. Once you are ready to hear your recording, hit the 'Play' button to play back the recording.

What you should see:

Once you hit the 'Play' button, you should hear the input that you put into the microphone.
